Policy: 1. Always providing that the editorial policy of the journal concerned allows this within its policies on
         prior publication, you are able to post a pre-print version of the Article on Internet websites including
         your home page, institutional website or subject pre-print server so long as a link is made on
         publication to the final published version of scholarly record on the journal's web page.
         2. You are able to post, after a 12-month embargo (STM) or 18-month embargo (SSH), your revised text
         version of the final article after editing and peer review on your home page, institutional website or
         subject repository so long as a single link is made to the fully reference-linked version of scholarly
         record on the journal's web page. For the avoidance of doubt, 'your version' is the author version and
         not the publisher-created PDF, HTML or XML version posted as the definitive, final version of
         scientific record.
