**Routledge** (Taylor & Francis Group publications):

**Taylor & Francis Group** - Conditions as follow:

- Pre-print: author can archive pre-print (ie pre-refereeing)
- Post-print: subject to Restrictions below, author can archive post-print (ie final draft post-refereeing)
- Restrictions:
  - 12 month embargo for STM Journals
  - 18 month embargo for SSH journals
- Conditions:
  - Some individual journals may have policies prohibiting pre-print archiving
  - Publisher's version/PDF cannot be used
  - On a non-profit server
  - Published source must be acknowledged
  - Must link to publisher version
- Policy:
  1. Always providing that the editorial policy of the journal concerned allows this within its policies on prior publication, you are able to post a pre-print version of the Article on Internet websites including your home page, institutional website or subject pre-print server so long as a link is made on publication to the final published version of scholarly record on the journal's web page.
  2. You are able to post, after a 12-month embargo (STM) or 18-month embargo (SSH), your revised text version of the final article after editing and peer review on your home page, institutional website or subject repository so long as a single link is made to the fully reference-linked version of scholarly record on the journal's web page. For the avoidance of doubt, 'your version' is the author version and not the publisher-created PDF, HTML or XML version posted as the definitive, final version of scientific record.
  - Authors should include the following credit line when depositing their accepted manuscripts:
